

## Compact-Body Sensor Sprue Gripper - DD20-16

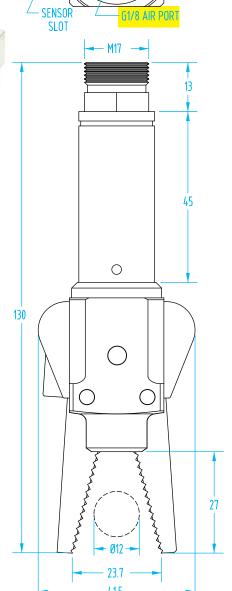

## (Dimensioned drawing shown full scale)

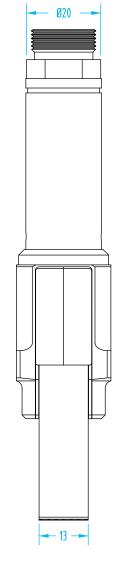

- New Sensor Slot position provides sensing without interfering with the part being gripped.
- · Angular, self-centering.
- Gripper has a G1/8" air port.
- Higher grip force than GRZ20-16 grippers.
- · Clampable along full length of Ø20mm body.
- Diamond-textured fingers provide excellent gripping of small to large sprues. This design is also excellent for sprues that need to be pulled or stripped from a mold cavity.
- 20mm diameter mounting body allows this gripper to be used with standard mounting components.
- · Replacement parts available online.
- Replaces older models: DD20-16R (#5838), DD20-16RS (#5839), DD20-16M (#6779), DD20-16A (#6773), DD20-16AS (#6774), DD20-16T (#7443).

SET-UP NOTE: The sensor will only send a signal when the gripper is actuated with compressed air.

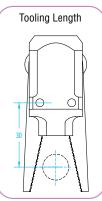

Quick#	Part#	Price	Style	Applicable Sprue Ø	lbs. Force at 30mm Tooling Length*	Weight
7551	DD20-16M2	\$159.00	Diamond Texture	1–12mm	45.0 lbf	143g
Order sensors separately See Sensor Reference Guide on page 1008 for a complete list of sensors for DD Grippers.						
1882	SS4N225G	\$27.20	PNP sensor	with lead, 2.5m long		6-30 Vdc
6282	SS3N203G	\$31.16	PNP sensor	M8 male connector, 0.3m long**		6-30 Vdc
1883	SS4M225G	\$27.20	NPN sensor	with lead, 2.5m long		6-30 Vdc
1884	SS3M203G	\$31.16	NPN sensor	M8 male connector, 0.3m long**		6-30 Vdc

Note: 2-wire reed sensors are not recommended for grippers.

<sup>\*</sup> The Closing Force listed is both jaws combined when supplied at 87psi. Tooling length is measured from jaw pivot point.

<sup>\*\*</sup> M8 Extension cables Quick#'s 2582 & 2583 available on page 985.
