

Sheet Metal Elastodur Vacuum Cups – Schmalz SAXM

The SAXM sheet metal vacuum cups by Schmalz are an ideal solution for handling sheet metal. The unique cleat design allows these cups to have a higher shear gripping force when the surface of the workpiece is covered with oils or lubricants.

- Bell shaped cups adapt well to contoured surfaces.
- Higher lateral holding force when part surface is oily.
- Excellent wear resistance due to high durometer materials.
- Sold with preinstalled nipples.

Schmalz SAXM Vacuum Cup Properties

Material	Color	Max Temp.	Durometer
