

Bin Picking PU / SI Vacuum Cups – Schmalz SVE

These bin-picking vacuum cups from Schmalz have an extremely thin sealing lip for optimal adaptation to corners, edges and free form surfaces. Stabilizing internal support contour for safe handling of different products. Large nominal flow compensates for leakages in a wide variety of workpieces.

- Bell-shaped suction cup for maximum flexibility on corners and edges.
- Handling of various workpieces in bin-picking applications.
- Handling of consumer goods in the field of warehouse automation.
- FDA compliant silicone for direct contact with food products.
- Nipples can be included or purchased separately.

Schmalz SVE Vacuum Cup Properties

Material	Color	Max Temp.	Durometer
