

# Harmo® Sprue Grippers – Size 20

(Dimensioned drawings shown full scale)

#704

- Elliptical piston provides high grip force to size ratio
- Single-acting models can also be used as double acting
- Field repairable, and for those who have older Harmo grippers, we offer rebuild kits.

Quick#	Part#	Price	Gripper Size	Jaw Style	Body Material	Applicable Sprue Ø	Force at 35mm Tooling Length*	Weight
704	GSG-HC20-BPX	\$190.00	20	Sprue (Open)	Plastic	4–12mm	13.0 lbf	150g
705	GSG-HC20-BDX	\$200.00		Sprue (Open)	Die Cast	4–12mm	13.0 lbf	225g

\*Note: Forces listed are for Closing Force when compressed air is supplied at 87psi. Tooling length is measured from jaw pivot point.
