

## Harmo Angular Grippers – Size 20

(Dimensioned drawings shown full scale)

- Elliptical piston provides high grip force to size ratio.
- Single-acting models can also be used as double acting.
- Internal spring provides reset.
- Field repairable, and for those who have older Harmo grippers, we offer rebuild kits.

Fittings Available  
on page 1037

Quick#	Part#	Price	Gripper Size	Jaw Style	Body Material	lbs. Force at Tooling Length:*			Weight
						20mm	35mm	35mm	
707	GSG-HC20-BP	\$160.00	20	Normally Open	Plastic	23.0 lbf	18.0 lbf	13.0 lbf	105g
711	GSG-HC20-CP	\$160.00		Normally Closed		28.0 lbf	22.0 lbf	16.0 lbf	105g
765	GSG-HC20-AP	\$160.00		Double Acting		25.0 lbf	20.0 lbf	14.0 lbf	102g
708	GSG-HC20-BD	\$170.01	20	Normally Open	Die Cast	23.0 lbf	18.0 lbf	13.0 lbf	180g
712	GSG-HC20-CD	\$170.01		Normally Closed		28.0 lbf	22.0 lbf	16.0 lbf	180g
766	GSG-HC20-AD	\$170.01		Double Acting		25.0 lbf	20.0 lbf	14.0 lbf	177g

\*Note: Forces listed are for Closing Force when compressed air is supplied at 87psi. Tooling length is measured from jaw pivot point.
