Choosing the Right Gimatic Sensor for Your Application:

Many grippers that are in the same family, use the same sensor(s). In this case, in the Quick# column, it will read: 'ALL'. When the family does not use the same sensor(s), you will find them by size, and with its corresponding Quick#.

Choose the correct signal (PNP, NPN), and the correct style (A, B, C, D).

Notice the slot type. In some cases an application can use more than one, and that is shown in the '2nd Slot Type' column.

Slot Type:

C: C-slot sensor
T: T-slot sensor
D: Dovetail-slot sensor
O: Other

For more information on these sensors specifications, see page 1000–1003.

For further help, call EMI and we can help find the correct sensor for your application.
