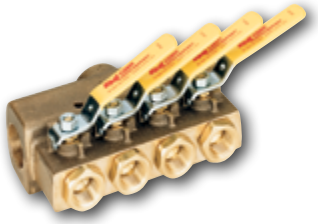
Solid Bronze Manifolds

All units in stock for immediate shipment!

EMI's Solid Bronze In-line Manifolds are available from stock. Solid Bronze Cluster Manifolds are 100% tested to 120 psi. Available in either a "cluster" or "in-line" style, they include brass, self-cleaning, full flow ball valves with reinforced Teflon® seats which eliminate the need for lubrication. Cluster-style valves let you fit your hose connections within the smallest space possible. Easily field serviceable.

In-line Models:



4 Outlets with ½" NPT & 3 End Ports with 1" NPT
